

UNICITY COMPLETE

Low Glycemic Meal Replacement to Support your Health
and Weight Loss Goals

Why would I want to use it?

- It is delicious!
- Helps jump start metabolism*
- Protein helps build and maintain lean muscle mass
- Provides fuel for prolonged energy without a blood sugar spike*
- One serving contains 20 grams of high quality protein
- Packed with 4 grams of fiber, vitamins and minerals
- Low calorie, convenient meal to balance the metabolism*
- Available in chocolate and vanilla

**These statements have not been evaluated by the Food and Drug Administration.
This product is not intended to diagnose, treat, cure, or prevent any disease.*

HOW DO I USE IT?

Combine two level scoops
with 8 ounces of water or milk

Shake or mix well

Drink and enjoy

*To achieve your weight loss goals more quickly, wait a minimum of 4 hours between meals
and 12 hours between dinner and breakfast.*

How does it work?

To Achieve your Weight Loss Goals

A diet high in protein is important for weight loss, as these calories are consumed at a slower rate than carbohydrates. **Carbohydrates** can spike blood glucose levels, **causing our body to store fat**.*

Studies show that individuals on a high-protein, low carbohydrate diet are able to **burn fat, increase muscle mass** and **feel fuller between meals**.

Consuming a balanced breakfast **jumps starts your body's metabolism** first thing in the morning. Studies show people who eat breakfast lose more weight than those who skip their first meal.

To Support a Healthy Body Composition

As a post workout replenishment drink, Complete contains **Leucine**, an essential amino acid, the building block of protein synthesis, which studies has shown is necessary for **muscle repair and growth** after exercise.*

As we add more muscle to our body, our **metabolism increases** and we will find it easier to **maintain a healthy weight**.
