

UNICITY VISION ESSENTIALS™

This latest vision health supplement, based on emerging science, incorporates a powerful blend of vitamins and antioxidants proven to support and maintain eye health. The special blend of antioxidants in Vision Essentials may help slow down the advance of AMD (age-related macular degeneration). The formula is based on the NIH's Age-Related Eye Disease Study I and II (AREDS) formulation, which found that a combination of antioxidants was able to slow the advance of AMD.

SUGGESTED USE

Take two capsules daily.

BENEFITS

Promotes and helps maintain eye health.

Supports retinal health.

Contains vitamins and minerals to help keep eyes healthy.

AUDIENCE

Primary target: People who interact with artificial light and screens.

Secondary target: Individuals who want to simply maintain good eye health.
